

**LX230RC Issue 1
Xenon 100w
Remote Control**

APPLICATION

THE FRANCIS LX230 Remote Control searchlight is part of the high power Xenon range. Having been designed with the precise aim of bringing a low profile, high performing and cost effective solution to the market.

The LX230RC has been carefully developed to withstand the extraordinary conditions while in use in the harshest of environment, such as Patrol Craft, Coast Guard and any application that requires a compact, lightweight and high performer.

Within the Francis LX range of marine searchlights, the LX230, utilizes a 100w xenon lamp, and has been designed to give maximum beam range and candlepower, giving the ability to identify objects and potential dangers from a far greater distance. As an optional extra option, this unit is also available with infra-red night vision ensuring total covert surveillance.
