

**APPLICATION**

The FRANCIS M16 Halogen searchlights incorporate the design features required to successfully operate searchlights in the most demanding product operating environments on land and sea.

The M16 is a cost effective and well made range of searchlights with fixed focus, using a 250w Sealed Beam Light Unit.

These units are particularly suitable for use on patrol craft, custom vessels and general marine applications.

As with all Francis products, the construction is robust and of the highest quality.
