

FX560RC 3Kw Xenon Remote Control Searchlight

The Francis FX560RC Bus range of variable speed Remote Controlled Searchlights incorporate the design features required to successfully operate searchlights in the most demanding product operating environments on land and sea.

The FX560RC is high power searchlight are well suited to applications where long range and excellent light output are required. For marine applications assisting collision avoidance and man over board situations, and crucially saving lives.

The colour temperature of the Xenon lamp being equal to that of 'sunlight', make this the searchlight ideal for polar regions, also known as "ICE SEARCH LIGHT"

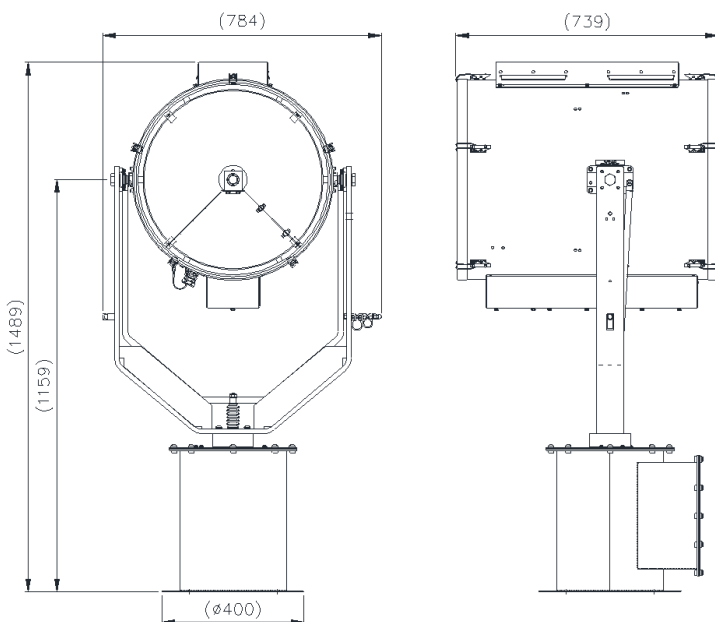

The Francis bus (FBUS) is a custom communication protocol based on RS485 two-wire bi-directional communication hardware.
